

Quality Tools for Smart Cleaning

PRESS RELEASE

UNGER erGO! clean Wins Innovation Award at ISSA Show

UNGER is excited to announce the UNGER erGO! clean has won an ISSA Innovation award in the Supplies and Accessories Category, which was awarded at the 2018 ISSA Show North America 2018 in Dallas, TX.

The UNGER erGO! clean combines dual-swivel handles and a self-guiding S-curve pole, providing a mopping system that is “self-steering”. The system is the first one available that includes both a height adjustable pole and the ability to dispense liquid from the bottle on board. This combination of features provides dramatically faster cleaning with less strain, stress and effort than any other mop currently available.

“At UNGER, our focus is making tools that get the job done faster and keep employees safer. UNGER erGO! clean has a unique design that allows users to use the latest technology and cut labor time in half” offered John Lombardo, VP Global Sales and Marketing for UNGER. “The patent pending elements of the UNGER erGO! clean all but eliminate strain and stress on the user and keep them moving at top speed.”

The UNGER erGO! clean is suitable for use on all hard floor surfaces for spot mopping, wet mopping, dusting and floor finishing. A 0,5L bottle, 1L bottle and 5L backpack allows you to scale your floor cleaning to match the environment. For more information on the UNGER erGO! clean Floor Cleaning System, visit www.ungerglobal.com/ergoclean.

About UNGER

UNGER is a leading international manufacturer of professional cleaning and maintenance tools. All UNGER systems are designed to make cleaning work efficient, ergonomic, and thorough. The portfolio includes professional pure water cleaning systems, a comprehensive range of glass cleaning products, floor cleaning, and maintenance systems, a colour-coded surface cleaning system, and a cleaning system for sanitary rooms. In addition to the high quality requirements and innovative product development, UNGER offers outstanding customer service. The headquarters of the company founded in Hamburg in 1964 are in Solingen, Germany and Bridgeport, Connecticut. The growing global business is driven by distributors in over 80 countries.
